

2 December 2010

Ai Claims Solutions PLC

AGM Statement

At the AGM this morning Steve Broughton, Chairman, will comment on the current trading of the company as follows:

“Trading in the first 4 months of the financial year is well ahead of the same stage last year having benefitted from two significant contracts with a major intermediary which came into effect in March and July. In addition, we have secured two recent renewals of contracts, one for two years and one for three years, and these underpin our expectations of meeting the current market forecasts.”
